October 2024 Revenue Performance by Segments

1. **In October, revenue was NT$804.8 billion, up 9.8% MoM. Computing Products and Smart Consumer Electronics demonstrated strong growth MoM. Components and Other Products delivered significant growth MoM, while Cloud and Networking Products declined compared to the previous month. Revenue performance detailed by each product segment as below:**

   (1) **Computing Products:** As new product pull-in demand ahead of China's Double 11 shopping festival and Thanksgiving holidays, revenue in October delivered strong growth MoM.
   (2) **Smart Consumer Electronics Products:** As new product pull-in demand ahead of China's Double 11 shopping festival and Thanksgiving holidays, revenue in October delivered strong growth MoM.
   (3) **Components and Other Products:** Due to increasing Smart Consumer Electronics related components shipment, revenue in October delivered significant growth MoM.
   (4) **Cloud and Networking Products:** AI continued to drive server demand, while there was a slight decline MoM due to the high base in September.

2. **Revenue in October 2024 was up 8.59% YoY. Cloud and Networking Products demonstrated strong growth YoY. Components and Other Products as well as Computing Products delivered significant growth, while Smart Consumer Electronics was flattish compared to the same period last year. Revenue performance detailed as below:**

   (1) **Cloud and Networking Products:** With increased demand for AI servers, revenue experienced strong growth YoY.
   (2) **Components and Other Products:** Revenue experienced significant growth YoY, driven by an increase in shipments of key components and growth in automotive-related business.
   (3) **Computing Products:** Revenue experienced significant growth YoY, benefiting from the demand for new products.
   (4) **Smart Consumer Electronics:** Revenue remained flattish YoY with stable performance.

October 2024 Cumulative Revenue Performance by Segments

Cumulative revenue for the first ten months of 2024 was NT$5,532.5 billion, a YoY increase of 9.57%. Cloud and Networking Products as well as Components and Other Products showed strong growth, Computing Products saw significant growth, while Smart Consumer Electronics experienced a slight decline. Revenue performance detailed by each product segment as below:

(1) **Cloud and Networking Products:** Strong growth YoY due to strong demand for AI servers.
(2) **Components and Other Products:** Strong growth YoY driven by increased shipments of key components and growth in automotive-related business.
(3) **Computing Products:** Significant growth YoY, benefiting from the launch of new major products this year.
(4) **Smart Consumer Electronics:** Slight decline YoY due to orders delayed by the pandemic at the Zhengzhou plant, which shifted production to 1Q23, resulting in a higher comparison base.

2024 Q4 Business Outlook

The second half of the year is traditionally peak season for the ICT industry, so operations are expected to gradually gain momentum quarter by quarter. Looking ahead to the fourth quarter, operations are anticipated to show both quarterly and yearly growth.
